

Chiropractic Care, Yes, Yes, Yes!

I scheduled an appointment to consult with Dr. John about major mid back pain that I had been suffering from for 3 months. It began at a pain level of 8-9, but now Dr. John has brought it down to a 1-2. I have used Ibuprofen and muscle relaxers before and that just put a band-aid on the pain.

I never doubted Chiropractic Care, and after the first adjustment my pain was cut in half. My pain continued to decrease with every visit. I now have great ROM (Range of Motion) of my legs and back. I have been able to quit my medications without suffering from any more pain.

Cove Freedom Chiropractic is a comfortable and relaxing environment and the staff is knowledgeable and friendly. I would easily recommend anybody in need to come to Cove Freedom Chiropractic Clinic. Shannon and Denise are AWESOME! Chiropractic works, I should have come sooner!

Sincerely

Robert Keyser
