

## **“I can get a good night sleep”**

I have the disorder neuropathy. Along with my disorder I experienced burning and tingling in my feet for about four years, and back pain for about 10 to 15 years off and on. I didn't see significant results from my visits to my medical doctor, even with the medicine they prescribed.

Something had to be done in order for me to receive some relief. I doubted chiropractic would help, because you can never promise anything. I was a little wary at first; however, the office staff was very friendly and knowledgeable. Dr. John seemed very concerned about my well-being.

After less than a year of chiropractic I have improved so much. I can now get a good night sleep. My wife is now seeing Dr. John for neck pain, lower back pain, and neuropathy. I would recommend chiropractic to others. I am all for it!

Sincerely,
